

COURSE II: Key Living Skills

Module 2: Education

Unit 3: Language learning

Co-funded by
the European Union

www.learn-project.eu/

Unit 3: Language learning

- Importance of language skills for integration
- Language learning strategies
- Practical language skills for daily life and education

Introduction

With the "Language Learning" module, immigrants and refugees with little to no educational experience can gain language skills and become more independent by giving them useful tools and tactics. This curriculum acknowledges the critical role language plays in gaining access to social integration, work opportunities, and education. Participants will work on improving their confidence and communication abilities via hands-on language learning exercises.

Title: Importance of language skills for integration

This unit aims to emphasize the significance of language skills in various aspects of life, including education, employment, social interactions, and community engagement.

Session 1: Understanding the Link Between Language and Integration

Session 2: Language Skills and Educational Success

Session 3: Language and Employment Opportunities

Session 4: Effective Communication in Daily Life

Session 5: Building Social Connections Through Language

Assessment

Conclusion

The unit "Importance of Language Skills for Integration" emphasises how crucial language competency is to immigrants' and refugees' successful integration. Participants will be inspired to invest in language acquisition as a critical tool for creating a more integrated and connected existence in their new setting by realising the effects that language proficiency has on education, work, social connections, and community engagement.

Title: Language learning strategies

This unit focuses on various approaches and techniques that learners can employ to enhance their language skills, fostering a more successful and efficient language acquisition process.

Session 1: Understanding Personal Learning Styles

Session 2: Immersive Learning Techniques

Session 3: Vocabulary Building and Retention

Session 4: Grammar Application in Context

Session 5: Utilizing Technology for Language Learning

Assessment

Conclusion

The goal of the "Language Learning Strategies" section is to give learners a toolkit of efficient language acquisition techniques. Through customisation of learning methodologies to suit individual learning styles, integration of immersive approaches, utilisation of technology, and promotion of social interactions, participants will acquire the necessary abilities and self-assurance to effectively navigate the language learning process.

Title: Practical language skills for daily life and education

This unit focuses on practical scenarios, vocabulary, and language structures relevant to daily life activities and educational environments.

Session 1: Everyday Vocabulary for Daily Life

Session 2: Conversational Skills in Everyday Situations

Session 3: Language Skills for Educational Settings

Session 4: Written Communication in Daily Life and Education

Session 5: Public Speaking and Presentation Skills

Session 6: Language for Problem-Solving and Critical Thinking

Assessment

Conclusion

The goal of the "Practical Language Skills for Daily Life and Education" section is to give learners the language skills they need to communicate effectively in both formal and informal contexts. Through an emphasis on conversational skills, practical vocabulary, and the language requirements particular to education, participants will gain more proficiency in navigating daily life and achieving academic goals in their new setting.

Summary

The "Language Learning" module seeks to give immigrants and refugees approachable and useful language learning techniques. Through an emphasis on fundamental language abilities, efficient learning strategies, and the utilisation of contemporary technologies and resources, participants will improve their language proficiency, hence augmenting their overall educational and integration outcomes.
